

REMARKS

Figures 3 and 9 are amended as required. All drawing pages have been substituted with new ones. In the last amendment of the specification, the strikeout line for the number "4" was applied but was mostly merged into its horizontal cross piece. The specification is amended appropriately assuming the specification after the last amendment replaced each number "4" with "4 4a". The specification is amended so that each appropriate number "4" is stricken. As required, the specification is amended so that the item numbers of the specification reflect the changed numbers of Figure 3.

Consideration of the above amendments and remarks is requested and it is submitted that such amendments and remarks place the application in a condition for issue. Claims 1-16 stand allowed. Applicant requests entry of amendments and passage of the application to issue.

Respectfully submitted,

Dated: August 2, 2003
